

# DVR, HD5-600 6 Channel

#710607

## Description

REI's HD5-600 DVR records video, audio and vehicle data via a removable hard drive. Connect up to 6 HD surveillance cameras to provide total video coverage in and around your vehicle. Communication module makes upgrading easy for faster communication technology as it becomes available. Customize your recording times or simply start your vehicle to begin recording. Fueled by 75 years of research and development, REI DVRs eclipse industry standards with new features, enhanced capabilities and expanded capacity. REI anticipates your evolving needs. Whatever your requirements, REI has the DVRs to outperform your expectations.

Why REI DVRs are superior:

- Durable, compact and lightweight
- Industrial grade hardware
- Quiet, clean fanless design prevents dirt build-up
- Internal shock and vibration dampening to extend the life of the hard drive
- Easily configured to your requirements
- Endless customization of accessories
- Customizable video quality settings
- Wi-Fi and cellular compatibility (antennas sold separately)
- Environmentally designed: aluminum chassis dissipates heat in extreme conditions; internal heater withstands extreme low temperatures
- High speed USB 3.0 port for a fast transfer of video directly to a computer

## Specs

Power: 8 to 32 VDC

### DIMENSIONS

Without brackets: 7.4" x 3.2" x 9.5";

With brackets: 9.1" x 4.0" x 9.5" (max)

Weight: 8.6 lbs (3.90 kg) with mounting brackets

Operating Current: <2A

Standby Current: < 2mA

Operation Temperature: -40°-+160°F continuous operation

Operating Humidity: 10% – 95%, non-condensing

### VIDEO RECORDING

Video Inputs: Up to 6 Channels

Video Standard: NTSC, AHD, ONVIF, REI

Resolution: Up to 1080P Channels 1-4, Up to UHD(4K) Channels 5-6

Frame Rate: Up to 30 fps per channel

Bit Rate: 40 Mbps

Compression: H.264 Triple stream encoding/recording high quality recording plus efficient network video streaming

Audio Inputs: 6

#### STORAGE

Hard Drive: Removable hard disk drive module with USB 3.0 interface, integrated shock and vibration dampening, and heater

Expandable Storage: eSATA port for external storage expansion (external HDD) up to 16TB of total internal/external storage

SD Card: SD slot for simultaneous (mirror) or alarm video recording

#### COMMUNICATION MODULE

Easily Upgradeable Communication Module: Field or factory installed removable communication module

WiFi (internal): Optional 802.11a/b/g/n 2.4Ghz/5Ghz WiFi (WiFi models only)

GPS (internal): Optional internal or external GPS receiver

#### INPUTS/OUTPUTS

8 vehicle sensor, active high/low selectable inputs, panic/event marker button, differential speedometer pulse input, GPS, accelerometer, Ethernet, USB 3.0, J1939, external record status indicator, video & audio output jacks
